Vice Chancellor's Message

Globally, higher education has witnessed a significant change in approach and growth. As a part of my vision, I am determined to take this distinguished institution of higher learning to the next orbit of professional excellence. Keeping pace with technological advancements in teaching and research methodologies, Guru Gobind Singh Indraprastha University has achieved a pronounced shift towards interdisciplinary studies. Research-based interactive learning with technology integration has opened up several options as well as created multiple challenges. The University has been faithful to its mission of delivering quality education, infusing ethical and moral values in the youth and boosting their leadership qualities, research culture, and innovative skills. Our vision can only be realized by a competent faculty, state-of-the-art infrastructure, and an extensive connection between academia and industry experts through regular interactive programs.

The main campus is built on 60.46 acres in the picturesque greenery of Dwarka, New Delhi. We are proud to be a 100% self-sustained campus, replete with solar panels, rainwater harvesting and sewage treatment facilities. The campus infrastructure is mindful of people with special needs. The campus also has housing provisions for faculty, non-teaching staff, and outstation students.

As India marches into the fourth *Industrial Revolution*, we as a University are all set to respond as fast as possible by establishing two new Schools of Studies, namely, the '*University School of Automation & Robotics* (USAR) and *University School of Design & Innovation* (USDI), at our newly built East Campus, Surajmal Vihar, New Delhi. The new campus has been made functional from the academic session 2021-2022. Four B.Tech Programs in the niche emerging fields, including *Artificial Intelligence & Data Science*, *Artificial Intelligence & Machine Learning*, *Industrial Internet of Things* and *Automation & Robotics* in the USAR, and a *Bachelor of Design* in USDI, with fully equipped labs/studios, have been started at the ultramodern new East Campus.

At Guru Gobind Singh Indraprastha University, research and innovation are regarded as pillars of success. Most of the faculty members of the University are engaged in extramural research projects funded by various agencies. The outcome of the research is passed on to the students through live projects from industries, boosting their entrepreneurial zeal.

The University is in the process of establishing 'Incubation Centre' to extend full support to budding entrepreneurs to nurture their ideas, nourish them with innovation and creativity and establish an enterprise of knowledge transfer and wealth creation.

The University is committed to adopt and implement the provisions of the **National Education Policy 2020** (**NEP 2020).** The University has constituted a Task Force for action on the same. A few of the initiatives already undertaken include skills-based courses, blended learning, realignment of course structure, and open electives, to name a few.

I appreciate the interest that you are evincing in Guru Gobind Singh Indraprastha University. I wish you grand success in the accomplishment of your rightly dreamt careers. I envisage many more laurels coming to the hardworking students and I am more than sure that a great future awaits the ones who will be able to make an entry into these programs.
